

NOTICE OF PUBLIC HEARING
R307-405 Permits: Major Sources in Attainment or Unclassified Areas (PSD).

The Utah Air Quality Board proposes to revise R307-405 to update the incorporation by reference to the most recent version of the CFR, dated July 1, 2007. The rule has been changed so that a single reference in R307-405-2 will apply to the entire rule rather than repeating the date in each subsection. This change will simplify future updates to the incorporation by reference date. The following update to 40 CFR 52.21 will be included.

June 13, 2007 – EPA removed the pollution control project and clean unit provisions that were vacated by the DC Circuit Court of Appeals on June 24, 2005. The change was effective immediately. These provisions were already excluded from Utah's incorporation by reference so this is not a substantive change. R307-405 has been changed to remove the exclusions from the incorporation by reference because they are no longer needed.

A public hearing will be held if requested by 5:00 p.m. on October 15, 2007.

The comment period closes at 5:00 p.m. on October 31, 2007. Comments postmarked on or before that date will be accepted. Comments may be submitted by electronic mail to mcarlile@utah.gov

or may be mailed to:
